

No. 2025 - 009

Genetic Testing Evaluation Certificate

Institution : Macrogen, Inc., Sejong Branch

Laboratory : Molecular Genetic Laboratory

Lab ID : 47

Certification period : Jan. 1 to Dec. 31, 2026

The Korean Institute of Genetic Testing Evaluation hereby certifies that the aforementioned laboratory participated in the genetic testing proficiency evaluation and achieved the following results.

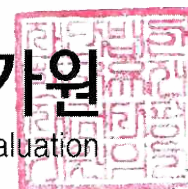

Evaluation category	Onsite Inspection (grade)
Laboratory General	A
Category 1	A
Category 2	A
Category 5	

Evaluation category	External Quality Assessment (score)
Category 1	Cancer Genetic Test
	Genetic Disorder Test
	Pharmacogenetic Test
	Liquid Biopsy
	NGS-Panel (Germline)
	NGS-Panel (Somatic)
	Karyotyping
	Fluorescence in situ Hybridization (FISH)
	Chromosomal Microarray (CMA)
	Non-Invasive Prenatal Test (NIPT)
	Others
Category 2	100
Category 5	100

- ※ Grade standards: Grade A (Excellent); Grade B (Good, subject to further education); Grade C (Quality improvement required, subject to further education).
- ※ If any practice that legally disqualifies the laboratory is discovered during the certification period, this certification may be suspended or canceled for the remainder of the certification period.
- ※ The certification will remain valid until the certificate for the subsequent year is issued.
- ※ Suspension of evaluation: The evaluation will be suspended if any genetic testing item in an evaluation category has not been evaluated in the laboratory for any reason, including the lack of laboratory preparation.
